PROJECTS

[AI-Based Meeting Insights Generator](#)

2024 - 2025

Tech Stack: Python, NLP, Whisper API, Streamlit

- Converted meeting audio into summarized action items using AI-powered speech-to-text and NLP; reduced manual documentation by ~60%.
- Built interactive Streamlit interface integrating Whisper API for real-time transcription and insight generation.

[Smart Retail Demand Forecasting System](#)

2024 - 2025

Tech Stack: Python, Pandas, Machine Learning, Power BI

- Built ML model to forecast retail demand from historical sales; improved forecasting accuracy and optimized inventory planning.
- Designed Power BI dashboards visualizing demand fluctuations, seasonal trends, and key business KPIs in real time.

[Real-Time Data Pipeline for E-Commerce Analytics](#)

2024 - 2025

Tech Stack: Python, MySQL, Pandas, Apache Kafka (Basics)

- Designed ETL pipeline to process e-commerce purchase data in real time; automated data cleaning reducing manual effort by ~40%.
- Generated sales and customer behavior insights via optimized SQL queries; applied Kafka basics for streaming ingestion.

EDUCATION

BE - Electronics & Communication Engineering

2023 - 2027 (Pursuing)

Sathyabama Institute of Science and Technology, Chennai | CGPA: 8.0 / 10.0

Class XII - Higher Secondary

2022 - 2023

Deva Anani Matric. Higher Secondary School, Chennai | 70%

CERTIFICATIONS

- Google Data Analytics Professional Certificate — Coursera (2025)
- Microsoft Azure Data Fundamentals (DP-900) — Microsoft Learn (2025)
- Databricks Fundamentals Certification — Databricks Academy (2025)
- Introduction to Generative AI — Google Cloud Skills Boost (2025)
- SQL (Advanced) — HackerRank (2024)

ACHIEVEMENTS

- 5x Hackathon Winner — Consistently top-performing solutions across multiple inter-college technical competitions.
- Top 10 - Inter-College Hackathon — Recognized for innovative and impactful technical solutions.
- Best Project Award - Sathyabama University (2025) — Awarded for outstanding project design and execution.
